## A Message from the Director

#### "And all at once, summer collapsed into fall" - Oscar Wilde

Welcome to the Fall 2022 semester of the Osher Lifelong Learning Institute (OLLI) at University at North Texas! I am happy to welcome back our returning OLLI members and extend a warm greeting to all new and prospective members. In addition to a curriculum packed with incredible courses, there are several exciting new things happening this semester. First, I would like to introduce two new members of our team. Tom Augsburger, our colleague in UNT's Division of Advancement, will now be providing support for our department's budgetary operations. We're also welcoming Liza McLatcher, who has just joined our staff as an Administrative Specialist.

I am extremely excited to announce OLLI at UNT's new partnership with CC Young Senior Living. When OLLI at UNT was featured on *Good Morning Texas* in 2019, we received many calls asking, "When are you coming to Dallas?" A few years later, thanks to the generosity of CC Young's leadership, we are now there! Our Dallas OLLI courses will be held exclusively at CC Young in The Point Auditorium on Tuesdays from 10:00am - 11:30am this fall. This new partnership allows OLLI at UNT members to take classes at 8 locations in the North Texas region. I highly recommend checking out a course at this new location. It is absolutely beautiful. Additionally, the majority of CC Young courses will be livestreamed, making them available to all OLLI at UNT members, near and far.

Without the support of UNT's President Neal Smatresk and his wife Debbie, OLLI at UNT would not be the premier lifelong learning program in the North Texas region that it is today. Together, they have helped guide our program, develop our curriculum, grow our membership, recruit and support our faculty, provide space for our UNT classroom, and so much more. In honor of their many contributions, we will be renaming our evening lecture series to the Debbie and Neal Smatresk OLLI After Five Series. Please join us on Thursday, September 8th for a special naming ceremony and our first official lecture under the new series name. Dr. Laura Evans will give a brief recap of our Treasures and Thieves trip from last May and then present a brand new lecture titled "Murder, Mayhem, and the Mafia." For more information, please see page 28. Sign up quickly to reserve your spot!

I am very excited about this fall's local chartered bus trip. We will be attending the Japanese Festival at the Ft. Worth Botanic Garden on Saturday, November 5th. If you have ever visited the Japanese Garden before you know just how beautiful it is. According to their staff, the Fall Japanese Festival takes place during peak fall colors at the garden. During our visit, you'll be able to enjoy a variety of Japanese dancers, drummers, swordsman, and many others. A wide variety of Japanese food vendors will be available from which to choose your lunch. Our chartered buses will be picking up and returning OLLI members from three of our classroom locations. I encourage you to sign up for this special event as soon as possible as this trip is sure to fill up. For more details, please visit page 23.

Enjoy perusing this catalog to find out which classes pique your interest. There is truly something for everyone.

Let's leap into fall and embrace all OLLI has to offer.

The Osher Lifelong Learning Institute (OLLI) at UNT is part of a national network of OLLI programs that receive support from the Bernard Osher Foundation. Our mission is to foster intellectual stimulation and social engagement through an extensive array of learning opportunities curated by and for our members. Since its founding in 2009, our program has grown to include 8 classroom locations around the North Texas region and over 1,000 members.

DALLAS MUSEUM OF ART

Our classrooms are an ideal environment for expert instructors, many of whom are active or retired faculty, to share their wealth of knowledge with eager adult learners. We promote education simply for the joy of learning.

#### Here's what our members have to say about their experience:

"I enjoy interacting with people who are interested in exploring an information-filled world because it stimulates creative thinking."

"OLLI at UNT is just what we need to keep our minds agile."

"The knowledge, skill, and enthusiasm of each instructor has made every class an enjoyable learning experience."

If you've never attended an OLLI course before, please reach out to our office. We'll welcome you for one free course as our guest.

## What does OLLI offer?

#### **Non-credit Courses**

Taught by active and retired university faculty, as well as other subject matter experts, our courses are designed to make learning fast, easy, and fun. Instructors submit proposals prior to each semester for approval by our Curriculum Committee. OLLI courses can consist of up to four 90-minute sessions and there are never any tests, grades, or mandatory assignments.

These groups are led by members with support from OLLI staff and provide opportunities to get to know others with shared interests. We currently have several book groups, a yoga group, and a brand new wood turning group. Members interested in starting a new group should reach out to our staff for assistance.

#### **Lecture Series**

We partner with travel agencies to offer our members discounted group rates for selected domestic and international trips. Celebrating its 100th year in 2022, CC Young Senior Living is nestled in the heart of East Dallas on a lush 20-acre campus at White Rock Lake. As part of our new agreement, OLLI at UNT's Dallas-based courses will be held exclusively at The Point, CC Young's 20,000 square foot multipurpose facility, which is open to both CC Young residents and senior adults in the general public.

We're grateful to CC Young President and CEO Russell Crews, who earned his MBA in finance from the UNT College of Business in 1986. He is a Lifetime Member of the UNT Alumni Association and has served on the College of Business Dean's Advisory Board. In 2002, Crews was recognized with the university's Outstanding Alumni Service Award.

"UNT holds a special place in my heart as does CC Young," Crews said. "This partnership continues our mission to foster premier environments where every life at every age can be

valued and enriched. Engagement and continuing education are key elements for life enrichment at any age. We could not be more happy to offer this robust curriculum to our residents and area seniors – especially during our centennial year."

# FACULTY SPOTLIGHT

No one tells a true crime story quite like Professor Evans. By weaving in the intriguing, unbelievable, and often humorous details few people know, she really makes you feel like you're getting the inside scoop. This past spring, Dr. Evans led a group of members on our "Treasures and Thieves" tour through several of the great museums of Europe, giving lectures on infamous art thefts and forgeries along the way.

Find her fall lectures on pages 29 and 35.

#### **ANDREW TORGET, PHD**

UNT Department of History University Distinguished Teaching Professor

2022-23 Fulbright Scholar

Dallas Morning News 2021 Texan of the Year Finalist

Guinness World Record Holder for "World's Longest History Lesson"

Professor Torget's enthusiasm for history is legendary. He's been known to bring stories from Texas history to life by climbing onto nearby objects and jumping into the air during his popular lectures. He even set a Guinness World Record by lecturing on Texas history for 26.5 hours straight! This summer, Dr. Torget led a group of members on our "Revolutionary Road" tour, exploring historic sites of the Texas Revolution.

Find his fall lectures on page 38.

When the pandemic brought our Spring 2020 semester to an early end, Dr. Neumann was the first professor to offer a virtual lecture for our members on mindfulness methods to help them cope with the situation. When we started our podcast back in 2018, he was the first to agree to be interviewed. Although he spends much of his time researching the dark side of human psychology, Dr. Neumann is known for promoting positivity through his humor and generosity.

#### **Bookshelf Catch-Up**

Tuesdays, Sept. 13, Oct. 11, & Nov. 8 2:45pm - 4:15pm Denton Senior Center Orange Room

This group is for those readers who love getting lost in libraries and bookstores, only to realize months later that the "bestseller," must-read book on their shelf has been sitting there unread way too long. Participants will share their personal response to the book with the group.

#### News of the World

by Paulette Jiles

In the aftermath of the Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this morally complex, multilayered novel of historical fiction that explores the boundaries of family, responsibility, honor, and trust.

## *The Ride of Her Life* by Elizabeth Letts

The triumphant true story of a woman who rode her horse across America in the 1950s, fulfilling her dying wish to see the Pacific Ocean, from the #1 New York Times bestselling author of *The Perfect Horse* and *The Eighty-Dollar Champion*.

#### The Book Woman of Troublesome Creek

by Kim Michele Richardson Inspired by the true blue-skinned people of Kentucky and the brave and dedicated Kentucky Pack Horse library service of the 1930s, this novel is a story of raw courage, fierce strength, and one woman's belief that books can carry us anywhere—even back home. Our SIGs are organized and led by members with support from OLLI staff. They are available to all members at no additional cost. We ask that members re-enroll in these SIGs every semester so that we can maintain an accurate roster of active participants.

#### **Great Books**

Fridays, Sept. 23, Oct. 28, & Nov. 18 2:45pm - 4:15pm OLLI at UNT Classroom

Join Donna Zelisko-McLaughlin to explore a category of literature called "great books." Selections might be philosophical, political, scientific, literary, or culturally significant. Participants will respond to the works from a personal perspective of what resonates to them.

#### The Glass Bead Game by Hermann Hesse In the remote Kingdom of Castalia, the scholars of the 23<sup>rd</sup> century play the Glass Bead Game, an elaborately coded game that is a fusion of all human knowledge. As Joseph Knecht fulfills his lifelong quest to master the game, he must

contend with unexpected dilemmas and the longing for a life beyond the ivory tower.

#### Slaughterhouse-Five or The Children's Crusade by Kurt Vonnegut Centering on the infamous

Centering on the infamous World War II firebombing of Dresden, this novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American

prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. **Book Talk with Dr. Greenlaw** Wednesdays Sept. 7, Oct. 12, & Nov. 9 2:45pm - 4:15pm OLLI at UNT Classroom

This discussion group is led by Jean Greenlaw. The topic for each meeting will be the theme of Dr. Greenlaw's "Book Talk" column that appears in the *Denton Record-Chronicle* on the first weekend of each month. It is not necessary to read the

books mentioned in the column, but it will make your participation more meaningful for you if you do read a book that fits the theme. It can range from a picture book for children to the most complex book you find on the topic. Dr. Greenlaw will begin each session by discussing the topic and a few books from her column. A link to the column will be sent to the SIG roster before the meeting. Then members will participate by discussing the book they read. There are three points Dr. Greenlaw would like participants to be ready to discuss with the group:

- 1. How does the book you read fit the theme?
- 2. What was your most important takeaway from the book?
- 3. Why would others be interested in reading the book?

Fall Themes: <u>September 7</u>: Mysteries <u>October 12</u>: Music, art, and crafts <u>November 9</u>: Books worthy of giving as gifts

If you wish to be a member of the SIG and not participate in the discussion, you are welcome. It just is more fun for you if you put your 2 cents worth in the discussion!

#### **OLLI Year-Round**

## From Jericho to Jerusalem:

The Archaeology of the Holy Land

# Thursday, Oct. 20; Tuesday, Oct. 25; & Thursday, Oct. 2710:00am - 11:30amRobson Ranch Clubhouse

Home to the three Abrahamic religious traditions, the archaeology and history of the "Holy Land" bears special significance for many people. Beginning with the houses and artifacts of the first farmers found at the base of Tel Jericho, this three-part lecture will trace the thousands of years of culture change that culminated with the establishment of Judaism, Christianity and Islam in the Near East. From Neolithic villages to Copper Age towns and finally Bronze Age cities, the archaeology reveals both continuity and change in religious practices, set in a region that was periodically dominated by Egypt, Mesopotamia and even "Sea Peoples". The Iron Age, including the Kingdom of David, heralded the first rise of monotheism and the state of Israel. Our journey will continue through the Roman and Byzantine empires and conclude with the Islamic invasion and subsequent clashes with both Crusaders and Mongols. The main aim of this series will be to entice members to pursue their own exploration of the rich and unique history of this crucial region, attaining better understanding of why this small part of the world has played such a key role in the past as well as the turbulent present.

**Reid Ferring, PhD,** is a Professor Emeritus in the Department of Geography and the Environment at UNT. ## Unveiling the Invisible Universe

Monday, Oct. 3, 1:00pm - 2:30pm UNT Sky Theater Environmental Sciences Building 1704 W. Mulberry Street Denton, TX 76201

For thousands of years, humans observed the light coming from the night sky with their eyes. In the beginning of the 17th century, the invention of the telescope by Galileo revolutionized our knowledge of the Universe. Finally, in the 20th century with the advent of rockets, it became possible to go above the earth's atmosphere and observe X-ray and gamma ray radiation which are the marks of the hot and violent Universe. But it is not only light that can give us information about the cosmos. Neutrinos and cosmic rays also provide vital information. Finally, the detection by the LIGO experiment of gravitational waves from two merging black holes opened a new window in astrophysics. This fulldome video will present images of the cosmos as revealed by all these different messengers.

BRING YOUR LUNCH INTO THE CLASSROOM

#### "Unmuting" French Women Writers Through the Ages: An 18th Century Case Study

Wednesday, Sept. 7 OLLI at UNT Classroom

Since the construction of the literary canon has traditionally been androcentric (focused on men), many students of French literature—be they modern or not so modern readers—believe(d) that women did not write as much and as well as men. After a general overview of French literature through the centuries illustrating that women have in fact always written in many genres and on many topics, this lecture will examine the work of one particular French woman writer, Marie Jeanne Riccoboni (1713-1792), to demonstrate why it matters we "unmute" forgotten women writers by recuperating their voices from silence.

#### Marijn S. Kaplan, PhD, is

a Professor of French and has chaired the Department of World Languages, Literatures and Cultures at UNT since 2015. Her research interests include 18th century French women writers,

gender studies, cultural studies, epistolary fiction, and correspondence. She published a monograph in 2020 entitled *Marie Jeanne Riccoboni's Epistolary Feminism: Fact, Fiction, and Voice* (Routledge). Our Fall 2022 series will highlight faculty from:

#### France: Culinary Heritage and Regionalism

Wednesday, Sept. 28 OLLI at UNT Classroom

Most everyone has heard of baguette, boeuf bourguignon, brie, and macarons. France is known for its food, which has long been one of its strongest ambassadors to the world. But French food goes beyond those delicious staples and each region boasts specialties that constitute France's extensive and rich culinary heritage. This lecture will focus on some French regional delicacies and staples, exploring their history and impact on French culinary identity.

Sophie Morton, MA, is a Principal Lecturer in French and Coordinator of the 1st and 2nd year French Program in the Department of World Languages, Literatures and Cultures at UNT. She has taught at UNT for the

past 20 years. A French native, she particularly enjoys researching and teaching about the history of French food and its societal impact, French tourism today, and French movie comedies.

This series, which is complimentary for all members, highlights faculty from a different UNT department each semester. Members are invited to bring their own lunch into the classroom.

#### Tragedy and History in the Divine Comedy

Thursday, Oct. 20 Robson Ranch Clubhouse

The *Divine Comedy* of Dante Alighieri is a poem about history and politics written by a exile, of which the best-known feature is its description of the horrifying torments of the damned. What consolation could such a dismal vision offer? Is there any hope to be found for a deeply broken world? In this lecture, Dr. Pastor will explore the poet's vision of a world rent by avarice and competing ideologies, but not beyond redemption.

#### Joel Pastor, PhD, is a

Lecturer in Italian at UNT. His research deals with Medieval and Renaissance literature, theology, and history, with a particular focus on Dante and Petrarch.

A Blemish on the History of the 20<sup>th</sup> Century? The Contentious Remembrance of the Dresden Bombings in Post-War Germany

Wednesday, Nov. 16 OLLI at UNT Classroom

This lecture will provide an analysis on the ongoing controversies surrounding the remembrance of the Dresden bombings on February 13-14, 1945, in postwar Germany, with a special focus on the myths related to the mass cremations of the bombing victims on the Altmarkt, Dresden's old market square.

Christoph Weber, PhD, is an Associate Professor of German at UNT. He specializes in disaster narratives from the 18<sup>th</sup> to the 20<sup>th</sup> century. His most recent journal publications have revolved around

the literary representation and commemoration of the Allied bombing raids against Nazi Germany.

President Neal J. Smatresk joined UNT in 2014 with a vision for leading the University of North Texas to national prominence as the largest, most comprehensive university dedicated to meeting the needs of the dynamic North Texas region. At that time, our lifelong learning program was not yet affiliated with the Bernard Osher Foundation. Within two years, we were approved as the nation's newest Osher Lifelong Learning Institute thanks in large part to the extraordinary efforts of President Smatresk and his incredible wife, Debbie. The Smatresks know well the value of lifelong learning, having been intimately involved with the OLLI program at their previous university. President Smatresk advocated on our behalf to Bernard Osher himself and has always ensured that the program receives the university's full support. Debbie, who is a former OLLI director, has provided invaluable guidance to our staff and has also served on our program's advisory body.

As of this fall, our OLLI After Five lecture series will bear the Smatresks' names, reflecting their steadfast dedication to our members and their commitment to enriching the North Texas community through the joy of lifelong learning. These evening lectures are curated by our Senior Director and are available to all OLLI members at no additional cost. The events include a complimentary selection of wines, beers, cheeses, and crackers.

## Naming Ceremony and Inaugural Lecture

Thursday, Sept. 8, 5:30pm - 7:00pm Robson Ranch Clubhouse

Debbie and Neal Smatresk will be our guests of honor for this very special evening, which will begin with a brief naming ceremony. Following the ceremony, art crime expert Professor Laura Evans will give the first official Debbie & Neal Smatresk OLLI After Five lecture.

#### Murder, Mayhem, and the Mafia:

Caravaggio and the Theft of His Nativity with St. Francis and St. Lawrence

Michelangelo Merisi da Caravaggio's art is known for its extremes, in the interplay between light and dark and in his depictions of the human experience. His own life was a dramatic one that mirrored his art in these ways. In art, Caravaggio broke rules and in life, he broke laws. It is perhaps in keeping with his life then that one of his masterpieces, Nativity with St. Francis and St. Lawrence, was stolen from a church in Palermo, Sicily and hasn't been seen since. In this lecture, Professor Evans will explore the tumultuous life and work of one of history's greatest painters and the 1969 theft of his painting. She will also share highlights of this past spring's Treasures & Thieves trip, when she led OLLI members through the great museums of Europe, tracing infamous art crimes along the way.

Laura Evans, PhD, is an Associate Professor of Art History and Art Education and the Coordinator of the Art Museum Education Certificate at UNT. She was awarded a Distinguished Teaching Professorship from UNT in 2022. Her research interests are in the intersections between art museum education, interpretation, gender and narrative. Evans has also interned or worked at galleries across the world.

#### John B. Denton: True and Tall Tales of the Texas Ranger and Frontier Preacher Tuesday, Sept. 20, 5:30pm - 6:30pm Robson Ranch Clubhouse

This lecture will cover the history of John B. Denton, the man for whom Denton and Denton County are named. From his extremely humble beginnings and boyhood on the Arkansas frontier, Denton rose to become a man of prominence, well respected by his contemporaries, but his life was cut short in the Battle of Village Creek in Tarrant County. His legend continued to grow after his death and this session will cover the historical record of his life as well as examine the sources of the fantastic legends that sprung up after he was killed in 1841. The session will also explore the question of "Who is buried in Denton's Tomb?"

**Mike Cochran** has lived in Denton for more than 50 years and been interested in the history of the county for most of that time. His interest in historic preservation led him to become the Chairman of the City of Denton Historic Landmark Commission, President of the Denton County Historical Society and a member the Denton County Historical Commission. He was the Editor of the old Denton Review, a Journal of Local History and the curator of the long running history website Dentonhistory.net. He has been researching and lecturing about John

B. Denton for more than thirty years, which led to his publishing Denton's biography, John B. Denton: The Bigger-Than-Life Story of the Fighting Parson and Texas Ranger (UNT Press, October 2021).

### The Science Behind the New COVID Breathalyzer Test

Tuesday, Oct. 18, 5:30pm - 6:30pm Robson Ranch Clubhouse

Dr. Guido Verbeck and his team in the UNT Department of Chemistry are conducting mind-blowing research, developing sensors that can detect chemical weapons, seek out respiratory illnesses like COVID-19 — including creating a rapid COVID breathalyzer test — as well as detect early-stage cancer markers, all areas that can make us humans breathe a little easier. Breath capture chemistry is a rising method of examining physiological information as a means to discover and track biomarkers and metabolites for disease and diagnostic applications. This lecture will demonstrate how these compounds are discovered, and a pathway for new screening and diagnosing instruments.

Guido F. Verbeck, PhD, Professor of Chemistry and Biochemistry at UNT, is an expert in mass spectrometry, specifically instrument design and development. Dr. Verbeck has developed mass spectrometers over the past 20 years and has been a member of the analytical community for 25 years. Currently, he is Director of the Laboratory of Imaging Mass Spectrometry at UNT, where he has received \$5M in external funding, 85 peer reviewed publications, 10 awarded patents and 8 applications, and graduated 20 graduate students in instrument development. Dr. Verbeck was awarded a Young

Investigator Award from the Air Force Office of Scientific Research and the University of North Texas Early Career Award for Research Creativity. He continues to develop new mass spectrometers specifically for single-cell analysis for cancer biomarkers, nanoparticle development for pharmaceutical and toxicological biochemical effects, and determining the biological mechanisms for biomolecular condensates.

#### The Cultural Heritage of Europe and the Heroes Who Saved It During WWII Wednesday, Nov. 9, 5:30pm - 6:30pm The Point Auditorium at CC Young

As the most destructive war in history ravaged Europe, many of the world's most cherished cultural objects were in harm's way. This presentation will introduce the astonishing true story of those men and women who risked their lives amidst the bloodshed of World War II to preserve churches, libraries, monuments, and works of art that for centuries defined the heritage of Western civilization. As the war raged, these American and British volunteers — museum curators, art scholars and educators, architects, archivists, and artists, known as the Monuments Men — found themselves in a desperate race against time to locate and save the many priceless treasures and works of art stolen by Adolf Hitler and the Nazis.

Anna Bottinelli, MA, was born and raised in Florence, Italy, and obtained a BA in History of Art and a MA in 13th Century Italian Art from the prestigious Courtauld Institute of Art in London. She has been dedicating her time to the research of the Monuments Men for the last decade. First, she assisted author Robert Edsel on his project to write about the Monuments Men and their preservation work in Italy during World War II. Her work contributed greatly to the success of his acclaimed 2013 New York Times Bestseller, *Saving Italy: The Race to Save a Nation's Treasure from the Nazis.* In 2014, she accepted a

full time research position with the Monuments Men and Women Foundation for the Preservation of Art in Dallas and in 2019 became President of the Foundation. Today, Anna is considered an expert on the subject of art looting and recovery during World War II.

# **Community Connections**

We connect OLLI members to organizations that are making a positive difference in our community. Read about a few of the partnerships we've established with university and local organizations below.

### **UNT Food Pantry**

The UNT Food Pantry serves students at the university who are experiencing food insecurity. Our friends in the UNT Retiree Association (UNTRA) host several donation drives for this campus resource each year. We will notify OLLI members about these drives and inform them when and where to drop off donated items.

The pantry accepts food, toiletries, and monetary donations all year long. Learn more at studentaffairs.unt.edu/food-pantry/donate.

The Children's Advocacy Center for North Texas and their partners are the front-line responders to reports of child sexual abuse in Denton County and Wise County. They provide education, healing and justice to children, families and our community. We support the Center by participating in their school supply and holiday gift drives. We will notify OLLI members about these drives and how they can contribute.

Learn more at cacnorthtexas.org.

### **UNT PUSH Program**

The PUSH (Persevere Until Success Happens) program at UNT exists to identify, recruit, engage, support, retain, and graduate UNT students who have experienced foster care or homelessness. They connect these students to services, resources, and mentors. We regularly host PUSH students for social gatherings and other fun activities.

Learn more at studentaffairs.unt.edu/push.
