Proposed SPRING 2022 Courses

After the Curriculum Committee meets, OLLI staff will proof approved courses for typos, capitalization, etc. and edit descriptions/bios for brevity and clarity before publication in the catalog or on the website.

Each course proposal and biographical information was reviewed by the committee. Courses, as listed on the *SPRING 2022 Proposal Form Report*, were accepted with the following exceptions and/or suggestions for additional information and/or clarification.

- Course on personality (Wellness & Lifestyle) was not approved because the committee was concerned about potential, unintentional, negative effects this course might have on class participants.
- Two courses offered by the same presenter (Economics & Finance, Current Events & Social Issues) were in question. The committee supports Stephanie speaking with the presenter about these topics and about his area(s) of expertise.
- Office will ask for clarification on title and course description (Current Events & Social Issues) from presenter. This information will then be emailed to committee members for approval or not.
- Office will get clarification (Wellness & Lifestyle) on course description.
